This idea was originally suggested by @quercus-bicolor-2 in comments of <https://peakprosperity.com/instability-and-unrest-is-spreading/>

I think we should build a group. @quercus-bicolor-2 and @westcoastjan would you be open to joining me to create a seed group where we not only do this very thing, but also promote the idea to other peak prosperity members as well?

I am open to suggestions, since I do not think a kinetic answer is going to work.
